QualityGuard+Plus plans provide valuable peace of mind and the convenience of a nationwide network of authorized repair facilities to choose from.

Protection Against High-Mileage Worries

Once a vehicle passes 100,000 miles, mechanical breakdowns are more likely to occur. That's why factory warranty coverage rarely lasts that long. To protect you from unexpected (but not uncommon) repair costs, an extended mechanical protection plan is invaluable to high mileage vehicle owners.

QualityGuard+Plus High-Mileage Plans help keep your vehicle on the road and give you the peace of mind you deserve.

Effective & Affordable Coverage

The average age of cars and light trucks operating on U.S. roads has increased to 12.2 years.* As cars age, parts wear out and repairs become more frequent. A service contract for vehicles over 10 years old and/or 100k miles can help keep your vehicle in good shape for years to come. Our contract terms and options provide you with an unparalleled long-term value, right now.
